## FEATURES

Intuitive and extremely fast pitching (roll out, inflate, finished).

Simultaneous erection of air frame, inner tent and flysheet.

One-Pump System allows complete erection with only one inflation procedure.

The patented Multi Chamber Safety System allows separation of the air frame in two independent air chambers – for emergency stability in case defect of one chamber.

Stable and robust air frame with geodesic structure.

Double-layer air struts.

Two closable ventilation openings at the fly sheet. Two entrances with vestibules for cooking or storage.

Both sides can be rolled up to get a panorama view.

Light and well-ventilated inner tent with no-see-um mesh and storage pockets integrated into the head end.
