

MONOLITH SERIES - MINIMAL PACK

The MINIMAL pack is exactly what it claims to be. Reduced to the max, this 18 L pack carries all your daily essentials without any distraction. An all-clean front holds 3 pockets on the lower end, which help you to keep everything in reach and well organized.

The bag is made of **500D Cordura Nylon 6.6**, for extra durability and resistance.

The inside offers an organizational panel to store laptops up to 15". It is equipped with a M.O.L.L.E system to offer the possibility of integrating additional pouches for extra organization. Perfect in combination with the HPT VOLUME+ Series.

To keep the back panel flexible, the integrated laptop sleeve uses an elastic webbing system. It keeps your laptop in place while allowing the back panel to bend.

The MINIMAL pack is available in three different colorways: blue, feather grey and anthracite.
